The following is an examiner's statement of reasons for allowance: Applicant's arguments regarding the enablement of the claimed invention are persuasive in light of the Yang paper provided with the response after-final on 13 August 2004. This reference demonstrates that VEGF will reduce blood pressure in an animal model that is predictive of treatment of essential hypertension.

Applicant's Terminal Disclaimer, filed 06 October 2004, is proper and has been entered into the record. Therefore, all outstanding grounds of rejection have been avoided and the claims are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christine J. Saoud whose telephone number is 571-272-0891. The examiner can normally be reached on Monday, Tuesday, Thursday and Friday, 8:00-2:00.
